GENERAL MERCHANTS

¶ Since our fire on Jan. 21st, we have been obliged to carry on our grocery business in conjunction with our furniture and crockery departments on the corner of Ross street and Dennis avenue, near our old stand, and our dry goods, Boots and Shoes and Gents' Furnishings department in Shera & Kidney's old stand on Government street.

Q We now have a complete new stock of everything in our various lines and are doing our utmost to give you first class service and the best goods obtainable.

Q That our efforts are being appreciated is shown by the way our old customers are staying with us and by the many new firms we are seeing every day.

We want your trade and we use
you right.

Preparations Being Made for the Rebuilding of the
Queen's Hotel and the Fetherstonhaugh Block.
Work on Provincial Jail Started

The coming summer promises to be one of unusual activity in the Fort, especially as in the line of building. Already plans and specifications are out for the re-building of the Queen's Hotel. Bowden Bros., intend to reconstruct the hotel on the corner of the equipped barracks (in a site, in the province. It will be a three story brick building with stone foundation, having a 60 ft frontage and 70 ft deep. There will be a basement with underground parking for 100 cars. The cost of the material is over \$100,000. Much of the material is now on the ground, the debris is being cleared up and work will begin about the first of April.

(In the north side of Ross St. Mr. F. Featherhoughton has begun operations to rebuild all the stone, disintegrated in the fire. The brickwork is made of brick and Stouffville. All the brick used will be supplied by the Fort James Interchange Brick Co., and it is the intention of the builders to rank the work of the new building as a masterpiece. We understand that an aggregate of \$100,000 will be spent this year in the

There is considerable talk about the street railway and we understand that two or three surveys have been made within the town limits but nothing definite has yet been decided upon. There is no doubt, however, but such a line will be built in the near future.

Delightful Evening

Provincial Elections will be Held April 17th

The Alberta legislature has dissolved and April 17th set for provincial elections. Activity is now in evidence all along the line and it is expected that the campaign, though short, will be strenuous. Dr. A. E. Archer, of Lacombe is the returning officer for the Victoria district.

Oversmas Club Coming

The Oversmas club of Edmonson is to display its talent in the Fort on Friday April 4th. The members of this organization recently gave a very successful entertainment in Edmonson, and they propose to repeat the performance here.

It was quite apparent from the strong papers and addresses which were delivered that a great deal of time had been spent in preparation, which after all, is the object of these debates. And of ready a marked improvement in technique.

The second half of the entertainment will consist of the naming scene from *Flowerin' Boys* by Chas. Diabasi. The immortal *Flowerin'*, a character well known to Diabasi readers, is to be portrayed by Col. Cantelero of the 101st Engineer. By all accounts there is a great evening's amusement to be had by those who are fortunate enough to be present.

Mr. Jack Doran, who sang with great success at the A. Y. P. A. convention, used to sing at their concerts in Milwaukee, and may be persuaded to serve on this occasion.

The plays of Shakespeare's *Hamlet* and *Titus* may be found at Taylor's Jewellery

An ointment will never destroy the cause of inflammation, it merely drives it deeper, and increases its violence; it cures the disease by driving the mercury into the system, and thus produces internal sores, and great damage to the person. It is therefore better to cure the disease by the use of the medicine which does not drive the mercury into the system, and thus produce internal sores, and great damage to the person. I do not know much about the tariff, but I do know this much: when we buy goods abroad, we get the goods and foreigner gets the money; when we buy goods at home, we get both the goods and the money.
—Abraham Lincoln.

Work has already begun at the island where H. J. Smith is in charge of a gang of some twenty men who will be busy for a month or more laying stock, building two houses, putting in a "Y" and side track down to the property of the Consolidated Agencies Co. at that point.

Victoria Day will be observed on the same large scale as usual. A representative meeting of citizens was held in the Council Chamber on Wednesday night, and talked the matter over. It is hoped that the different churches will see to the assistance of the committee and help feed the multitude, as in former years. It is expected that a large crowd from outside points will take advantage of the holiday.

At the last meeting of the Town Council, no one failed to note that the subject of spring arbor, yard cleaning was discussed and some politicians interested to profit all glided as to the necessity of cleaning up arbor, piles and garbage accumulated during the winter months. In small towns the job is almost unobtainable during certain months of the year, but the practice of hanging up barrels and boxes with all sorts of garbage, and allowing them to sit at one's back door at all times, is not only disgusting, but dangerous. Could it not be arranged with the town sewerage by having rubbish boxes removed once a month, even, and thereby keep our free wells from contamination.

A report recently compiled by Port Arthur shows that grain is piling up at the American head of the lakes at a great rate, the quantity in storage exceeding that of last year at the same date by more than seven million bushels. Of wheat alone, there is now at Superior and Duluth 12,638,048 bushels, against 7,805,790 bushels in 1912, and of all grain in stock 24,838,740 bushels, against 15,000,000 bushels one year ago. This does not include bonded grain, of which there is 900,000 bushels on hand, more than 700,000 bushels in excess of 1912. The great elevator systems at the head of the lakes are now more practically filled, while the remaining two systems have room for six to eight million bushels more. Receipts last early part of March were running from two hundred and fifty to three hundred thousand bushels per day.

John Deere Farm Implements

"The Acme of Perfection"
We beg to announce that we have opened recently with a complete stock of this well known and first class line of farm machinery.

Call at our warehouse and see the Latest in Gang Plows

—no more weary taking off and putting on chains one by one; done the trick in a few minutes; this feature is exclusive on John Deere Plows; the greatest improvement of the year.

It will be worth your while to inspect the Famous Van Brunt Drill before buying similarly the best seed on the market.

We will guarantee satisfaction. —A SQUARE DEAL TO ALL! —a new motto.

THE CONSERVATOR

G. O. BARTLE, Editor and Proprietor

PUBLISHED FOR THE PROPRIETOR BY THE CONSERVATOR, FORT SASKATCHEWAN, ALTA.

PRINTED BY THE CONSERVATOR, FORT SASKATCHEWAN, ALTA.

Good resolutions will be rewarded with rich realization.

Canadian "Colliers" continues its weekly reflections on the failure of Canadians to be loyal in sentiment to the Dominion rather than to the Empire. While admitting that Canadian loyalty does not, in normal conditions, involve any conflict with loyalty to the Empire, "Collier's" is anxious that the people of this country should make up their mind to give their first loyalty to Canada and their second to Britain.

Why should Canadians make themselves unnecessary, hypocritical and invidious chits? It is tonight as well as a boy to decide whether he would stand by his father or his mother in case the parents should get into a fight. The boy is better with this self-conscious grading of his filial affections. It is a purely misanthropic suggestion that Canadian citizens should in their thoughts and speculations place their country in hostility to the motherland. There is no more need for a man in this country to decide whether he will go with Canada or Britain in case a conflict of interest than there is for him to say whether he would go with his province against the Dominion, or with his town against the province, or with his ward against the city, or with his family against the other half. Vancouver News-Advertiser.

A Clean Town is a Healthy Town

The town policeman reports that the citizens have all responded to the request of the town council and private yards are now all raked up and looking spick and span. There is still, however, a great lot of debris lying in vacant lots, all over the town, which should be attended to. There is nothing quite so unsightly about a little town as the accumulation of dirty papers, empty cans, broken dishes, etc., on its vacant lots, and especially where the lots are close in, and in many cases right in the centre of the town. Should this work not be attended to by the town council?

The Conservator, having made no comment whatever during the recent election, is pleased to note that through various exchanges that name have turned out satisfactory to all concerned. The Liberals are happy in the knowledge of a comfortable working majority. The Conservatives are happy because they have secured the majority of the fifteen government. The rest of the country is pleased that a House in which the strength of the two parties is fairly represented has been elected, and that an efficient opposition will keep the government on the straight path. It is greatly to be hoped that strong material will be developed among the new members and that more legislative effort will be devoted to other than the material progress that is so dominating a factor in a growing country.

Fort May Secure New Industry
The town of Fort May, located about 10 miles from the town of Brandon, has secured a new industry. The town council has secured a contract with the Canadian Pacific Railway Company for the construction of a new branch line from the town of Brandon to the town of Fort May. This line will be 10 miles long and will cost \$100,000. The town council has also secured a contract with the Canadian Pacific Railway Company for the construction of a new branch line from the town of Brandon to the town of Fort May. This line will be 10 miles long and will cost \$100,000.

Duke of Comaugh's Tribune
The Duke of Comaugh's Tribune, a weekly newspaper published in the town of Comaugh, has been purchased by the Duke of Comaugh. The Duke of Comaugh is a member of the House of Commons and is a member of the Duke of Comaugh's family. The Duke of Comaugh's Tribune is a weekly newspaper published in the town of Comaugh. Wags' father, he isn't Uncle Wags' dad. He just got out of a house he was completing. Is this it? A man is sitting on the side of a hill, communicating his love to people. Is it not whether he is on an American hill or not? I'm going to say it. I'm going to say the burner is a slope up and it's a little slope down. I'm going to say a slope up and a little slope down.

CHILDREN IN THE HOME

Millions there are children in the home. It requires constant attention to keep them from the many dangers that threaten them. Some are children who are in the home.

LOCAL NEWS SOCIAL NOTES

Is the Average Buyer Intelligent?

Here's something to chew on. Can a merchant buy an article for 50c and resell it for 60c and say in business? The answer is obvious. A child knows it isn't possible.

We find the buying public of the Fort pretty shrewd, and can imagine them reasoning out things like these:

A merchant, who cuts the price on staple articles so that there is no profit on those articles, if he intends to stay in business must get his profit on other lines that he carries.

In the end it amounts to this. Mrs. Brown pays more for something she needs so that Mr. Smith can get some advertised special upon which she pays no profit.

The moral of this little homily is this. Take your business to a store that aims to make a reasonable profit on all lines. You will save money by so doing.

Giving Thanks

Let us give thanks to God upon Thanksgiving Day.

Nature is beautiful and the harvest most abundant and duty is

easy beside us, and He is over us and in us. What more

do we want, except to be more thankful and more faithful,

less complaining of our trials and our time, and more worthy

of the tasks and privileges He has given us. We want to

trust Him with a fuller trust, and so at last to be

conscious that high life where we shall be "careful for

nothing, but in everything, by prayer and supplication,

with thanksgiving, let our request be made known unto

God," for that and that alone is peace.—Phillips Brooks.

Consider our national heritage. In arable land, in

forest, mine, water stretches, there is nothing on this wide

earth, can compare with our own possessions. And all

this we obtained freely. Those who came before us were

too early and those who succeed us will be too late to

receive all this as a gift.

Consider what we have received this year. Probably

never before in the history of the West was there such a

bountiful harvest. We count our grain by train loads, we

estimate it in hundreds of millions of bushels. The sun

and rain came in season, the wind stirred up the growing

plants and warmed them from within. All that men had

to do during the long warm days was to watch and wait

and wonder. And now that the fields have been reaped

shall there not be a heart's song of praise and thanksgiving

to God?

Keep Your Windows Working

Don't be afraid of giving your shop windows too

much attention—they are pumping the very life blood of

your whole business. Take an abstract example—let us

suppose, woman or child be constantly or unconsciously in

the market for a new watch, a birthday present, a pair of

shoes, or anything in fact. From this proper lesson on a

business street in your home town. Which store will get

the business—which store will make the profit? Seventy-

five times out of one hundred it is the merchant with the

attractive store front—the inviting windows.

Look at the front position of an ordinary buyer—

isn't it natural to spend your money with the merchant

whom you believe to be giving most in return? Don't you

unconsciously stop to study attractive, trade-pulling

windows?

Tanning Materials in United States
The Service of the United States for entry services show that there is a shortage of tanning materials in the United States. The chief source of tanning materials is the United States and is steadily decreasing.

Coin Demands End
The demand for United States gold coins has almost reached the point where the government is considering a considerable quantity was purchased. It gradually fell in the market, and the price of the coins is now very low.

United States in 1964 was \$80.00
used in 1967 \$150.00 less in 1968
\$10.00 less in 1969.

There are in all six sources of tan-
gins: galls, pests, fruits of certain plants
and leaves of some trees and shrubs,
wood of such trees as chestnuts and
quercus, bark of many trees and
shrubs, roots of certain plants.

The decrease in the amount derived from

PUBLISHED WEEKLY AT NO. 1100-1110 WEST 10TH ST.

Subscription Price: \$1.00 per Annum in Advance

FORT SASKATCHEWAN ALBERTA THURSDAY OCTOBER 11, 1917

True success means the development of all the faculties of man from the lowest to the highest, and becoming masters of any situation that presents itself.

Ever since threshing has started this fall farmers have been complaining of the treatment meted out to them by the local elevators. The complaint is that the price of grain here is from 3 to 4 cents a bushel less than at Brandon, where there is only one elevator, and from 4 to 7 cents less than at Edmonton.

This state of affairs need not obtain as the provincial government offers to loan to the United Farmers 60 per cent. of the original cost of construction at a very low rate of interest.

Get busy, farmers, and end your grouches.

The Scientific Farmer's Wife

There will be more or less trouble about keeping the girls on the farm until somebody invents a kitchen into a capacious receptacle of concrete into which may be dumped on cold winter days a few tons of fried pork, hot biscuits, baked potatoes, corned beef, collards, lentils, onions and apple pie, tastefully diluted with some hugh-balls of gravy and coffee. There should be, of course, be a trapdoor at the bottom, out of which the contents may be absorbed when the hay-baling, harvest hands and livery-pickers are to be fed in the day.

"I can hardly pass a hired man on the road without wanting to strike him," observed a scientific farmer's wife the other day. The storage of food for these hungry males is in fact appalling, and science, as applied agriculture, has done comparatively little to lower the temperature of the kitchen in midsummer.

Probably, on the whole, the kitchen is the weakest point in scientific farming. The same college training that makes farming a stimulating intellectual exercise for a young man also stimulates intellectual aspirations in the young woman which are hardly satisfied with cooking three square meals a day and contemplating rural scenery across the steam of a wash tub. And in nearly all rural communities, at all seasons, it is far easier to hire hands for the field than for the kitchen.

Science has done more for the farmer than for his wife.—Saturday Evening Post.

Hallowe'en, the evening of 31st October, so called as being the eve or vigil of All Hallows, or festival of All Saints, which falls on November 1st. It is associated in the popular imagination with the prevalence of supernatural influences, and is clearly a relic of pagan times. In the north of England, hallowe'en is known as Nutcrack Night. In Scotland the ceremony of the eve was formerly regarded as a highly superstitious light, and Burns' "Hallowe'en" gives a humorous and richly imaginative presentment of the usual ceremonies as practised in the rural Scottish districts in his day. The principal object of curiosity in contemplating the future was to discover who should be the partner in future. Popular belief ascribed to children born on hallowe'en the faculty of presencing and holding converse with supernatural beings.

Great Country Dream Coming An interesting legend has been told in the past of a certain man, who, in the year 1800, was a resident of the town of New York. He was a man of great wealth and was known for his generosity and his love of his country. He was a man of great wealth and was known for his generosity and his love of his country. He was a man of great wealth and was known for his generosity and his love of his country.

PORT SASKATCHEWAN, ALBERTA, THURSDAY, NOVEMBER 14, 1913

Never doubt too much of what you can do. You may get into a corner some time when you will have to make good.

Your attention is called to a letter in another column of this paper about the illustrated lecture given in the churches recently.

The mayor and council are to be congratulated upon the way the business of the town has been transacted during the year, and Mayor Jones must feel gratified to see the interest manifested by the large number of ratepayers who attended the meeting called by him last Monday night.

Nominations for four vacancies on the council board, and for two vacancies on the school board, will take place on Monday next in the town council chamber. There are obligations in connection with the above offices and every aspirant should consider well his adaptability before accepting such a responsible post.

The old slogan, do your shopping early, is again to the front. It is to be found on the front page, the back page and in the middle of every newspaper published within the people of the Fort and vicinity will be considered and their shopping as early as possible. We, therefore, will refrain from keeping the "shop early" sign up.

Hon. John R. Boyle probably doesn't think any more of the Calgary Liberals so than Hon. Frank Oliver has thought of Calgary gatherings in general for some years. Mr. Boyle was shown that Calgary Liberals have little sympathy with the government of which he is a member. And, as the minister of education would probably put it, "them is the facts."

Already the editorial in The Conservator of the 30th ult., re main prize and elevators at the Fort, is again to show results. In a letter to the editor from the secretary of the East Clover Bar Union of the United Farmers of Alberta states:

"With reference to your grain prices and elevators, it may be of interest to your readers to know that a Director of the Alberta Farmers' Co-operative Elevator Company will very shortly visit the Fort with a view to organizing a local at that point if the farmers so wish. The Fort had not been overlooked, but the demand for grain is very great, and some of the districts must necessarily be kept waiting."

Due notice will be given when the above mentioned Director will be here to explain the workings of the local and the benefits to be derived from them. We confidently expect the farmers in this vicinity will avail themselves of this opportunity to be present and also to organize a local union.

Alberta Film Show Exhibited at Chicago

C. E. Richardson, who has charge of the Alberta club at Chicago, has written Charles H. Hilditch, publicity agent for the province, stating that the club is now working in Alberta credit in comparison with the other exhibitors. The club is now working in Alberta credit in comparison with the other exhibitors. The club is now working in Alberta credit in comparison with the other exhibitors.

The exhibit is a new and representative collection of Alberta products, agriculture, and even of Alberta.

With Mr. Richardson, are Arthur Perry, of Chicago, who was with him at the Dominion Land and Apple Show at Winnipeg this fall and has carried off no less than several medals and prizes at the Chicago show, and W. C. Aldridge, assistant to Chas. E. Hilditch.

The exhibit is a new and representative collection of Alberta products, agriculture, and even of Alberta. The exhibit is a new and representative collection of Alberta products, agriculture, and even of Alberta.

Frederick's disappearance happened about seventeen years ago, when a boy of seven.

...one was much tougher around at that time, and his father was a good cop. The other was Fredrick, another brother, younger than the latter and a 1942 graduate of the University of Chicago. The evening when he came home, he was missing. His wife told me that his mother would have done anything to get a husband or a son home, so I am certain that the FBI had to have kidnapped him. The next day, I was in the hospital and I was told that each person was sent out at night but not a trace of the missing man. Finally, Brummett at the time came to me and said that he was right for it was one of those things that you know that a band of people had kidnapped him and sent for some money. He was in the custody of the Federal Bureau of Investigation and he was released about the day Frederick was released. The FBI was made to try to find out if it was a case of kidnapping and when they say it is a kidnapping case, it is a kidnapping case. I don't doubt anything a

SUICIDE IN VIENNA.

"Wind of Life" a Common Complaint in the Austrian Capital.

Statistics of the cases of suicide which occurred in the Vienna of last year in the Vienna of this year show that 1,563 persons killed themselves there, as compared with 1,646 during the previous year. The increase was mainly among females, 617 of whom took their lives as compared with 593 during the previous year, while the corresponding increase among the males was only thirty-five. The ages at which persons committed suicide varied within wide limits, the oldest of the victims being 84 years, the youngest only nine years.

It is a curious fact that the highest number of suicides occurred during the summer months are apparently more

The modes of death most frequently selected were by hanging (355 cases), shooting (232 cases) and poisoning (169 cases). Two women burned themselves alive. The women were generally disappointed by the article were in health, disappointed in love and want of food. In seventeen instances attempts at suicide were made by women who found themselves unable to cope with their class work at school.

A DRAMATIC MEETING.

When These Poor Girls Came to the Coast of this Hotel Room.

In the little hotel at Colchester, N. H., in which the principal actress of the play was staying, William Travers Jerome occupied rooms with Deputy Attorney General Franklin

Thew and his mother Thewby bought a tale.

The signal was given. Juvenile and Recently met in their various chambers the east, and the doors open. Juvenile was facing the door leading into the hall. Suddenly Thew appeared in the doorway. Juvenile, he said that will stories of the events of Thew's previous life, impart to his old friend half of what he had learned of the half of what he had learned of the ship of the White Thew. Thew, equally startled, glanced at the man who more than any other now alive he considered his dearest enemy.

But Thew was the first to recover his composure. With a nod he said: "Good evening, old. I mean to be in the right track, but the wrong way." Whereupon he turned and went down the right—New York Edition.

Gaelic in Scotland.
Though the latest official report on the census of Scotland shows that the population is fully as much more Gaelic than in 1881, there is a decline in the number of Gaelic speakers. The construction of Gaelic speaking persons in Scotland was first instituted in the census of 1881. The census now indicates twelve gave the number of 101,000, as number of Gaelic speakers. The Gaelic alone numbered 25,371 in 1890.

We Can Please You—Sure

This is the way we
figure it. Most ev-
erybody prefers high
class stationery.

We handle only that
kind, hence our cus-
tomers are natural
conquerors.

Suppose you let us
do up your order
some for a day.

Get some of our
Coffee. And some of
that you have been
talking about.

Include some of our
canned vegetables.
They are extra qual-
ity.

And all the great
things we have taken
us have just right.

Drugs 100% Pure

Our Prescription Department we consider is the most important in our business.

Nothing but the best and purest drugs are used and nothing in the nature of substitution for the true drugs are employed.

We are Druggists first, last and all the time.

Our Prescription business has increased so much that we find it necessary, for the convenience of our customers, to open between the hours of 11 and 12 a.m. Sunday for this purpose.

THE CONSERVATOR

G. G. BARTY, Editor and Proprietor

PUBLISHED WEEKLY BY THE CONSERVATOR, FORT SASKATCHEWAN, ALTA.

FORT SASKATCHEWAN, ALBERTA, THURSDAY, FEBRUARY 8, 1934

The business man who will not help himself the interest of the town does not deserve to have the townpeople help to boost his business.

Get ready for the parcel post. Waiting, sir.

To consider the Edmonton City Council and city commissioners are a fine business. Making appointments, overlooking their powers, and dismissing. "It is to laugh."

The Dominion Government is causing the parcel post system to take effect February 10th. This is an undertaking of no small proportion to attempt arranging. There is to be a general reduction over express rates as they are at present. No parcel weighing more than six pounds will be accepted for the first three months of its organization. It will be quickly taken up by Canadianists in general, but beginning May next eleven pounds may be sent.

Our Prescription Department, we consider is the most important in our business.

Nothing but the best and purest drugs are used and nothing in the nature of adulterations for the true drugs are employed.

We are Druggists first, last and all the time.

Our Prescription business has increased so much that it is necessary for the convenience of our customers, to open between the hours of 11 and 12 a. Sunday for this purpose.

POLICY FOR THE
BENTON KILLING

GREY'S STATEMENT IS
APPROVED BY JOURNAL

English Paper says: A recent
Must Either Assume More
Responsibility
Bent. 10.

The former British minister
in Washington, Mr. Grey, has
just published a statement
concerning the killing of
Benton, a Canadian miner,
by a party of Americans in
the Yukon territory. Mr. Grey
states that he is of the opinion
that the killing was a
deliberate one, and that the
Americans were guilty of
a crime. He also states that
he is of the opinion that the
Americans were guilty of a
crime.

The Yukon territory is a
vast one, and it is not
surprising that there are
many crimes committed in
it. The killing of Benton
was one of the most
recent ones. It was a
deliberate one, and it was
a crime. The Americans
were guilty of a crime.

Drugs 100% Pure

Our Prescription Department we consider to be the most important in our business.

Nothing but the best and purest drugs are used and nothing in the nature of substitutes for the true drugs are employed.

We are Druggists first, last and all the time.

Our Prescription business has increased so much that it had to be necessary for the convenience of our customers, to open between the hours of 11 and 12 a.m. Sunday for this purpose.

THE CONSERVATOR

G. C. BARTY, Editor

PUBLISHED WEEKLY BY G. C. BARTY, Editor

PORT SASKATCHEWAN, ALBERTA, THURSDAY, APRIL 1, 1914

There are evidences of a quiet, but increasing demand for real estate in this town which will develop into real activity before very long. Many things point that way.

In last Sunday's Edmonton Bulletin was a partial reprint of the town of Fort Saskatchewan. The article, however, was not fully representative of the town, but a percentage of our business men approve of this method of advertising, and it is yet to be proven that the write-up of small towns in city papers has been of the smallest value except to the paper writer.

Should a lawyer, dentist or a druggist decide to locate here on the strength of the statement made in the Bulletin article we would suggest that they first consult those already located here, as it is a question whether there would be remunerative work for any others.

When the Bulletin mentioned our cut and received information he neglected to ask The Conservator to buy space, and incidentally we were debared the usual newspaper courtesy.

A Code of Manners

Those who have been grumbling for ages past that manners had become an unknown thing—especially among the young people, will find satisfaction in the thought of possible improvement, and there is good ground for the belief that something will be accomplished from the fact that the code of etiquette is to be introduced among the children of the Public Schools. It is doubly interesting to receive this information, says the Goshawk Herald, because it has been a charged that besides being Godless, the Public Schools of the Province were mannerless. There is, it must be confessed, some ample ground for the latter accusation.

An attempt is now evidently to be made to correct the rudeness of the rising generation by impressing upon them a general code of etiquette. For this purpose a manual has been issued, stamped with the Provincial coat of arms, and recommended by the Minister of Education for use in school libraries. It is entitled "Manners," and the only drawback to the scheme we see is that there is a danger that the book will repose in all its beauty for too long a period on the library shelves, without being seen by the children. The hope is that the teachers will utilize the volume, and so a pure order shall arise from the instruction which they will impart in their respective classes.

Teachers should be given no option in the matter. Where the code of etiquette laid down in "Manners" is precisely the code which some people use should make no difference. The bulk of the children of Ontario lack any code of etiquette, and their conduct very often amounts to rudeness little short of boorish. If we live amongst it, all do not notice the general lack of manners prevalent amongst young people, but we do notice that vulgar display is becoming increasingly great. Visitors criticize us greatly on all points, stating that in some respects Canadians have outdone the Americans.

"Manners" could be advantageously used in some of our Alberta educational institutions. Quite recently a case was brought to our notice where a couple of ladies had occasion to visit a large college, and upon opening the door found the hallway crowded with a lot of young men who were behaving in a most disgraceful manner. They stared in the reddest way at the ladies (perhaps they considered them intruders) making no move whatever to allow them to pass in, even jostling one of them until her hat was almost knocked off her head. Imagine their surprise when the principal of the school stepped out from amongst these youths and said "stand aside there, and let these ladies pass," whereupon still amidst much snorting and snuffing two very indignant ladies got themselves beyond the danger line. —Editor.

At any and all seasons you will find us doing our best to deserve your patronage. We know of no better way of deserving it than by running the best sort of a grocery that we know how. That means never relaxing our watchfulness of this, that and the other thing. It means being satisfied with modest profits. It means many other things, too—but chiefly it means GROCERY GOODNESS. Today is a good time to put us to the test and the article may be whatever you happen to need.

New Demonstration Farm
One hundred and thirteen acres will be set apart by the Southwestern Land Company for a demonstration farm on their new tract. It is about to be opened up. The farm in question will be located in part of New river at Houndstongue. It will be in charge of an experienced man from Colorado.

Almonds and other cold weather crops will be grown on the farm. A large portion has already been planted and treated in preparation to receive water.

PORT SASKATCHEWAN, ALBERTA, WEDNESDAY, APRIL 9, 1914

Change in Day of Publication

From this week onward The Conservator will be published every Wednesday instead of Thursday as heretofore.

The publishers, will give the advertisers a longer time to bring before the public the wares they have to offer.

The Montreal Tribune makes it how to the public this week under the editorship of A. L. Carleton.

The paper is a bright, new sheet full of live local matter. We bespeak for this new venture a liberal patronage by its town merchants as an advertising medium and an ever-increasing subscription list.

Notice to Advertisers

All advertising copy must be in the printers' hands not later than Monday evening to ensure publication on the Wednesday following.

the goods in the store back up. It isn't that way everywhere is it? Generally what is printed is better than what the store sells. But we are particular in this regard; particularly to have much evidence that our goods are of the best quality. So when you read a statement about what this store sells you don't have to discount it to get at the truth. Just take what we say at its face value and you will find no cause for dissatisfaction.

What Our Ads Tell You

the goods in the store back up. It isn't that way everywhere in it. Generally, what is printed is better than what the store sells. But we are particular in this regard; particularly to have such estimates that exaggeration is quite unnecessary. So when you read a statement about what this store sells you are likely to discount it to get at the truth. Just take what we say at its face value and you will find no cause for dissatisfaction.

Punctuation Marks

Punctuation as a means of giving words points, so as to indicate the meaning of certain words was among the reader to a proper execution is derived from its early use in deciphering a grammatical system of Alexander Egypt, who lived in the fifth century B.C. Whether his system may have been, it was subsequently neglected and forgotten, but was reintroduced by Comenius, the seven signs given were the following: the comma, the semicolon, the colon, the period, the exclamation mark, the question mark, and the apostrophe. The present system of punctuation was introduced in the latter part of the 16th century by Aldus Manutius a Venetian printer who was responsible

One morning a rather commanding-looking woman entered a newspaper office and asked to see the editor. The editor was promptly produced.

OVERWORK AND WORRY
—
**A Foul-Smelling Gas of Broken Down
Circulation**

A little worry does a great deal of harm. Overwork and worry give rise to headaches, nervousness, palpitations, indigestion, and other ailments. They also cause your work, indignation and dissipation a complete breakdown of the nervous system, leading to the production of the foul-smelling gas which you need a treatment. And the only way to come up to the mark is through the blood. Dr. Williams' Pink Pills for Pale People is a direct press tonic because it makes more rich red blood, which is the nerve and strength-giving gas in the body. Under the influence of three Pink Pills a wonderful change takes place in your system and your worries quickly disappear. They restore the circulation and enable the blood to take full advantage from the food you eat.

Mrs. J. C. Chapman, Orem, Utah.

These Pills are sold by all medicine stores, drug dealers or will be sent by mail at 50¢ per box. Write to a box or six boxes for \$2.50. Write to Dr. Williams' Pink Pills for Pale People, Dr. J. C. Scribner, Co., Brooklyn, Cts.

It appears that one publisher, with connections in New England, has made a deal with a publisher's agent. The fact happened to appear, and said he'd like to have the sketch. "If I can't buy it," Ochs said, "I'll give you \$100." So, said the richer, whose words were broken by a coughing fit, "let me see the market. I won't charge you anything for the sketch, but—like you suggested on the pig pen—I'll tell you what. You can give me one of those nice little sketches of your own."

The farmer growled, "Why, mate, I've been thinking, 'do you know what those pigs are worth? Their worth is dollar apiece.'"

Watts will render the protuberant hands assailable. Clear the error.

"You act as if you thought you
self superior to the government."
"Well," replied the genial agent,
do tell slightly superior. As a tax
payer, when I owe the government
anything I pay. When the government
owes me anything I demand it like
about the matter."

"Is your wife has eloped with you
children?"
"Yes, but he wasn't much of a char-
acter." — Benjamin Franklin.

"And what do you know about
Mason?"
"Please, brother it's my first time."

IN PARADISE by good, hard work, there are still a lot of human-beastners who expect to get their money by a modern tourist route. A short time ago the latest expedition to summit the great treasure on Combe Island returned to Paradise confirming its futility. A few thousand dollars were in money and several lives have been poured into the quest, and the treasure runs as scarce from the heads of modern arguments as it has been for nearly a century.

Mr. Mills encountered his adversaries had believed there was not a man railing himself as a fool for engaging in such an enterprise. Yet when he

ration speaks volumes for the thoroughness of the workmanship and the excellence of the materials which went to their making. Roman masonry work of this kind was distinguished from those in vogue today, by the rounded and were well carried out. First two parallel ditches were cut, marking the edges of the proposed roadway. On the soil between the ditches was a layer of rubble stones about 4 inches thick. A layer of concrete or stamens mixed with lime and 12 inches deep over that another 12 inches or so of stamens—like pounded water laid mixed with lime and sand. The top or back, which was made of rubble stones, was 3 or 4 inches thick and consisted of

Of course, the Methods of the Roman road makers varied somewhat. Like the sensible, practical men they were, they used the materials that were readily at hand. From the Chalk and of Kent, portions of the Roman road show it to have been made of alternate layers of chalk and gravel and flint. These sands when marsh ground had to be used, the Romans built a common way consisting of a series of raised, hard-packed earth and, with glass about their feet in length and road laid above them.

The advent of the stone coach wheel and the blunders of vulgar transport and imprudently the error of improving the roads. At

The rebellion of 1755 gave a great impetus to the making of British roads for military as well as civil purposes. The military value of good roads was realised, steady communication was found to be essential on both sides of the border. The extension of the turnpike system however that with violent opposition from the populace, who resented the tolls there set so many barriers to freedom of movement, was the "Bible of the Sixteenth Cen-

to destroy the survivors and burn down the last-remnant Troops had to be dispatched to quell the disturbance.

It is a remarkable fact that one of the first and most successful of British road makers was a blind man—John Metcalf of Knaresborough, who was responsible for the construction of over 100 miles of roads in Yorkshire, Cheshire and Derbyshire.

Metcalf was a pioneer in the making of roads a branch of civil engineering which was brought to the greatest degree of perfection in this country by Thomas Telford, the famous road-builder of Scotland and Edinburgh. Metcalf was the founder

construction of cities and roads to
suit this heavier traffic.

The sewers of Paris which have suffered severely from the recent drought are the most wonderful in the world, and constitute one of the sights of the city. Visitors are allowed to inspect them on certain days of each week, and it is certainly an experience to walk a "personally-constructed sewer" of the two main sewers. The journey is made on electric cars and locomotives, which draw up automatically at brightly illuminated stations.

The hundred British newspaper men have joined Kitchener's army, thus tacitly admitting that there are times when the sword is mightier than the pen.

The Closer View

So far as concerns an adequate conception of its reality, at close range, the recent war between Turkey and some of the neighboring states is still a closed book to the world and possibly always will be. And it has been felt that in large measure this might be true also of the present great war in Europe.

But, repeatedly as newspaper correspondents are deterred from the scenes of action, as well as the government censorship on letters, telegrams and the press, this state of the world is now the subject of the general situation. Every important change in that situation will be made known to it immediately, even though the accounts of events differ. What is lacking is the close view which affords the human aspect of the conflict. That view the world wants even though it shudders in anticipation of what it must inevitably be. And that view it will ultimately have.

Instead of being hampered by a dearth of material, future historians of this war will labor under an embarrassment of riches. The men engaged in the strife are not Turks or Balkan chieftains, but some of the most highly civilized people of the world.

On the firing line, in the air and under the sea, men are doing battle who have a world-wide vision and possess high intelligence, good education and well developed talents. When they come home, after the last shot has been fired, they will talk and write about what they have been through. They will have sketches and photographs of scenes which have thrilled or horrified them. The man of this material will be common.

The world war yet to be seen in all its details of hideousness and heroism.

Don't forget that a key with every \$2 purchase applies on heating orders. Order your heater now and get 5, 10 or 15 chances on the \$55 Range that we are giving away absolutely free. This will mean more to you than a large dividend.

Our Rule of Three

is of interest to housekeepers who devote thought to grocery buying.

RULE ONE—Extreme care when we purchase.

TWO—Inferior goods never even considered.

THREE—Prices as small as we can make them.

That's our rule of three. We have other rules, too. The "Rule of Three" is of interest to housekeepers who devote thought to grocery buying.

last night's gunfire he was perched on a machine gun mounted on a truck, and was disabled by the soldiers. At the same time a number of German officers with Reid were busy looking at the German planes, and an observer could be seen a large number of soldiers.

Now," said one of the officers, "I will show you something magnificent. You will be the first Americans to have seen the Kaiser since the war began."

The prisoner took the professor's hand and led him to the front of the line. The professor was in a state of shock, and the soldiers were in a state of shock, and the prisoners were in a state of shock.

T. French lieutenant did not see a single figure on a broad ground waiting intently. He signalled the attack.

"That is he," said the German to Gorr. "Now if you know you are here and see no other Nancy."

But the Germans did not see Nancy in the early hours of the morning the reinforcements for which the defenders were waiting had been sent, and an hour afterwards the whole of the attacking force returned. Turning round, the prisoner saw the brilliant searchlights in parade order, waving with their beams. "War! War!" they cried.

NOT READY TILL SPRING

Among This Year's Are 20,000 Soldiers—Weekly Men Wanted

The bulk of Lord Kitchener's new army of 1,000,000 men are coming into being, but, according to expert military views, are not ready for service in the spring. It is owing to the superior class of men have responded to the call the training is progressing rapidly. From 17,000, according to the latest figures, there are nearly 200,000

All weekly men among the new recruits have been rapidly weeded out during the stiff training and most of the men are developing into fine soldiers with their excellent physical condition. With them a valuable addition to the rest of the army which will be in the field next spring to reconquer the southeast against Germany.

The Footprints of Cities
That the strongest fortifications ever built cannot withstand the attacks of the great German air arm, mortars will be readily understood from the following explanation of capacity.
Start particulars as to the weight of steel and ballistic features of all such mortar are not available, but by comparison with our own 12-inch mortar it may be assumed that following particulars are not far from the facts. The weight of the gun and its carriage etc. are 10,000 lbs. The weight of the mortar is 10,000 lbs. The weight of the mortar is 10,000 lbs. The weight of the mortar is 10,000 lbs.

As upon the sea, as upon the land the attack has overwhelmed the Panco. For it may be stated with little fear of contradiction that rain of 1 inch well falling vertically from an altitude of several miles would suffice to destroy the strongest fortifications existing today. signs that which were in evidence when these facts were discovered. Against these unwarmed black stars, filled with delayed-action fuses and fitted with the most modern explosives, they are helpless.

The permanent press officer of the U.S.S.R. is equivalent to a spokesman in this country prohibiting the sale of spirits. vodka is neither more or less than whiskey. It was, however, just as good and fresh as whiskey was and from the Soviet Union we were sent some of the finest Nowdays in the world. The drinking whiskey, with a patent still, the new materials have, stainless steel, and

It does not matter a great deal what materials are used as great in making spirit if it is distilled with a good still, which supplies perfectly good alcohol. There seems to be no reason in the nature of things why we should be any more fearful or more potent than whisky. It is of about the same alcoholic strength, and is usually drunk neat. The vodka is or, not pure because. The spirit is said to be for consumption on all promises, that is, immediately consumed.

People Talk About Economy

But how many really know, have proven that there is no economy equal to that of buying and eating healthful food.

This economy sometimes saves a few cents more a week on groceries just to be sure.

The economy distinguishes between what is low priced and dear and what is moderate priced and cheap.

This economy considers the health of a family the most valuable of assets.

To people who practice this sort of economy we commend this Grocery story of ours.

Our methods have stood and are standing the severest tests long this.

If you appreciate the top notch Grocery quality - investigate.

**Publication of Yellow Book throws some new light on
Diplomacy of Germany which has Resulted in
War of the Nations**

The French ministry of foreign affairs in accepting responsibility for the war has made public a report on the causes of the war. The report is a long and detailed document, and is the first of its kind in the history of the French republic. It is a document of great importance, and it is one which will be read with interest by all who are concerned with the history of the war.

The French diplomatic documents in this book are divided in chapters in order to distinguish the documents printed from the principal phases of the Russian crisis.

[illegible][illegible]

The report then goes on to state that the German government, through its position on the subject, is in a position to be able to carry out its policy of non-interference in the internal affairs of other countries, and that it is in a position to be able to carry out its policy of non-interference in the internal affairs of other countries, and that it is in a position to be able to carry out its policy of non-interference in the internal affairs of other countries.

Fun With Yarn From Basket

The Port Saskatchewan hockey team won their first game here on New Year's day, when they easily defeated the team from the city of Regina.

The game was rather too one-sided to be interesting, but the local boys are showing wonderful improvement.

Friday evening the Yarny team will be here and the Port will endeavor to avenge the defeat they received at the hands of the Regina team in the season.

Yarny is the only team which has succeeded in beating the Port on their own ice in the last five years.

In Monday the Port will play the Yarny team, who will play a league game here. The teams now stand as follows in the league:

Yarny	W. L. Pts.
Port	1 1 2
Yarny	1 1 2
Yarny	1 1 2

PORT SASKATCHEWAN, ALBERTA, THURSDAY, JANUARY 19, 1924

There is no single feature in the present war in Europe that illustrates with greater force the necessity of public opinion than the result of the invasion of Belgium by the Germans. The prime minister of Germany started out with a public admission that the country had done wrong in invading Belgium. He justified this wrong on the ground that it was a military necessity, and would be made right in the end. Now the Germans seek to find another excuse in the statement that they have since their own acknowledged wrongful act against Belgium neutrality found evidence that the country was in hostile agreement with its enemies. It is not much use going into the evidence pro and con in the case. If it is true, the Germans admit that they did not know it to be true when they invaded a state against which they had no grievance in violation of their treaty agreement. If it be not true it only adds to their moral responsibility. The sympathy of the world is with Belgium. The verdict of civilized mankind is that they have been done a gross wrong by the violation of their neutrality by Germany. It was bad moral, bad statesmanship, bad military judgment. It cost far more than it was worth in every way. We cannot well know what public sentiment in Germany may say, but it is certain that history will record the invasion of Belgium by the Germans as a blunder that was worse than a crime from a practical standpoint.

SOME GLOOMY FORECASTS OF THE ECONOMIC OUTLOOK IN GERMANY

HERSERO SHORTAGE OF FOODSTUFFS EXPECTED

Every Man in France is Determined upon Preventing the Way to a Successful Outcome, and Will Fight to Remove Conditions Which Endanger France

From an entirely reliable source comes the following forecast of the future of Germany, taken by leading members of the French government, as they are expected to see the situation in Germany, after the war.

There will be a shortage of foodstuffs in Germany, and this will be a serious problem for the German people. The German government will be forced to take measures to prevent the situation from becoming worse. The German people will be forced to live on a diet of bread and butter, and this will be a serious problem for the German people.

The German government will be forced to take measures to prevent the situation from becoming worse. The German people will be forced to live on a diet of bread and butter, and this will be a serious problem for the German people.

With these two incidents thrusting the weight of their crimes into the spotlight, the Italian and the American said a cabinet meeting in Geneva, at the war-worn Swiss resort of Montreux.

From the King of the Belgians

The Belgian king has written to the President of the United States, asking that the American people should be asked to contribute to the relief of the Belgian people. The king's letter is a beautiful expression of the friendship between the two nations. It is a call to the American people to help the Belgian people in their time of need. PUBLISHED EVERY THURSDAY AT FORT SASKATCHEWAN, ALBERTA.

PORT SASKATCHEWAN, ALBERTA, THURSDAY, APRIL 26, 1912.

Reports from the surrounding district show that the farmers are taking advantage of the fine weather and the early opening of the season. Seeding is in full swing, in fact most of the wheat has been sown. The soil being in excellent condition, with lots of moisture, the prospect for a heavy yield in the subsequent crop is assured.

Praise from King George, Lord Kitchener and Sir John French, special mention in the British official reports and obitograms of congratulation on the splendid work of the Canadian soldiers now at the front, all sound most fervent in the ears of the people of this Dominion.

We are proud of our soldier boys, as we know we would have reason to be. Like thoroughbred hunters they have fulfilled every expectation of their early promise. The casualty list is a heavy one and there is mourning and sorrow in many a Canadian home this week, but the heroism and heroism of the Canadian soldier is a thing that will live in the hearts of the people of this Dominion. The Canadian soldier is a thing that will live in the hearts of the people of this Dominion.

They have won their golden spurs.

BRAVE BELGIUM NOW PLACES HER FAITH IN JUSTICE OF THE WORLD

IT IS IN GERMANY THE BRAND OF INFAMY RESTS

Belgian Government Asserts that the Neutrality of the Rhine Country was Not Violated Before the Commencement of the War, as Has Been Alleged by the Germans

The Belgian government has issued a statement asserting that the neutrality of the Rhine country was not violated before the commencement of the war, as has been alleged by the Germans.

The statement says that the German government had made no attempt to violate the neutrality of the Rhine country before the outbreak of the war, and that the German government had taken all necessary steps to prevent such a violation.

The statement also says that the German government had made no attempt to force Belgium to allow German troops to pass through its territory, and that the German government had taken all necessary steps to prevent such an attempt.

The statement concludes by saying that the German government had acted in a most honorable manner throughout the entire conflict, and that the German people were entitled to the same respect and consideration as the people of any other nation.

At a meeting of the executive committee for the 34th May sports it was decided not to hold the annual celebration this year.

Time For A Clean Up

There is no reason why the spring "clean-up and paint up" movement should be confined to the city; there is plenty of room for much work on any country or suburban place. The passing of winter reveals many a bit of debris and trash, for the removal of which the place will look much better. As soon as it is possible to work around out of doors, take the lawn, gathering up all the old, dead leaves and remains of last summer's grass. This and similar material should be added to the compost heap or burned, so that it will not blow away; it is still better, however, as burning wastes much valuable fertilizing matter. Broken limbs from the trees, however, bits of shingles torn from the roof by the high winds of winter, similar trash, and all pieces of waste paper and the like, should be gathered into a heap and burned on the first day when there is no wind.

Moderation Needed

The recent stampede in favor of total prohibition has to a large extent died down. In fact, it begins to look as though, in some degrees, it had been engineered by the ardent advocates of the cause. Evidently, on second thoughts, the Russian decided against drastic measures. Information from Russia does not bear out the wide claims made as to the action of that country. It indicates that while the sale of a violent and potent liquor has been stopped, the consumption of lighter products is not forbidden.

In the same way France has put an embargo on absinthe, a decision which varies little from the extreme prohibition of alcohol. In fact, it is a virtual prohibition. But France, no more than England or Russia, has succumbed to the demands of extremists.

Time in Alberta the subject of thought of the people is something (if not in regard to this matter). It is not found that Saskatchewan, while banning the bar, is not proposing to prohibit the sale of spirits for beverage use, except under proper control. An absolute Act of total abstinence would militate against its efficient operation in some cases, and do injustice to responsible citizens in others.

The Alberta act is not efficient prohibition, nor is it anything else very definite. It is a proposal submitted under abnormal conditions, but which once adopted must be worked out under conditions widely different from the present. Other countries have foreseen or experienced the danger of endeavoring to enforce such laws. Alberta would be better advised if it took the course of its more moderate friends by encouraging the sale of beer and light wines as against that of spirits. It should at least look further before leaping into a situation in which harder and wiser countries see so much danger. — Calgary Herald.

One of the most striking features in the literature on the effects of the 1970s energy crisis on the U.S. economy is the finding that the impact of the crisis on the U.S. economy was not as severe as had been expected. This finding has been attributed to a number of factors, including the fact that the U.S. economy was in a period of relative stability and growth at the time of the crisis, and the fact that the U.S. economy was able to adjust to the crisis more quickly than had been expected.

tion of the American Campaign for the Defense of the Marriage Vow, a national organization that has been set up to keep all attempts at interfering with marriage by law. He suggests that people who are not prepared to recognize civil divorce should work for prohibition of the sale to the public of contraceptives, sterilization, abortion, dissemination of a knowledge of the existence of the "pill," and "eugenic competence" to the public.

"They should get the young people out of the schools and out of the news and lead in love with suitable partners, and then we can see what will fall away some of the social and economic bars to marriage and divorce," he says.

Dr. Becker speaks of the countries of the world as being divided into two main groups, those of the East and West, and other states of numerous peoples he called by their "eugenic" markings. These are the "superior" and "inferior" peoples, with which eugenics has nothing to do," he said.

Alberta's Showing

In view of the fact that there has been so much talk recently of need for greater activity in recruiting in eastern provinces it is interesting to note how Alberta as a province stands in relation to other parts of the dominion in the matter of enlistment. Figures which make a comparison possible are furnished, which is editorially prefacing a regret at the poor showing made by Quebec province.

The Mail bases its calculations on provincial population returns and gives the percentage of recruits as viewed from this angle. Here it is:

Province	Population	Actual No. of Enlistments	Percentage
Ontario	2,000,000	10,000	0.50
Quebec	1,500,000	5,000	0.33
Manitoba	500,000	2,500	0.50
Saskatchewan	500,000	2,500	0.50
British Columbia	500,000	2,500	0.50
Alberta	500,000	2,500	0.50
Total	5,000,000	25,000	0.50

With that showing the province of Alberta has every reason to congratulate itself, but Alberta is doing nothing of the kind. For the benefit of the Mail and other easterners let it be said that Alberta has as yet not taken time to figure just where she stands in relation to the other provinces in this regard. It is assumed to the people of this province that there was a great need and that their business was, as far as was humanly possible, to supply that need. Thus far it has been done without any special effort on the part of recruiting officers. It has been a case of the recruiting officer being overruled in the cities and the men coming forward and offering themselves. That there would be a much larger percentage in certain areas where the restrictions of the militia department have up to date prevented many from doing so.

It is deplorable that there is not as great zeal being shown in the east for the king's service. With their former populations the eastern provinces should have easily outdistanced Alberta in the work of enlistment and that they have not done so is to their credit. Even if they had done no better than Alberta the showing today in total would have been very different as the following table will show:

Province	Population	No. volunteered	No. should have
Ontario	2,000,000	10,000	10,000
Quebec	1,500,000	5,000	5,000
Manitoba	500,000	2,500	2,500
Saskatchewan	500,000	2,500	2,500
British Columbia	500,000	2,500	2,500
Alberta	500,000	2,500	2,500
Total	5,000,000	25,000	25,000

Canada does not despise the "bantam" any more than Britain did. The high standard for recruits has been lowered to five feet two. Even at that Napoleon would have had trouble in scraping through.

The formation of bantam regiments in Canada has been suggested and some of the authorities regard the idea with favor. So they should. Because a man happens to lack something in inches it does not follow that his strength is inferior or his powers of endurance below average. And why should the "bantam" be barred from fighting the King's battles if they wish to?

Optimism for the Allies

What are the reasons why the Allies should be optimistic? The answer is simple. The Allies are winning the war. The Allies are winning the war. The Allies are winning the war.

Many dairy producers already have a good idea of the factors that will make or break their dairy business in 1979. But it's better to know the facts in advance than to find out the hard way. Here are some of the factors that will affect the dairy business in 1979.

1. The economy. The economy is the most important factor in the dairy business. If the economy is strong, the demand for dairy products will be high. If the economy is weak, the demand for dairy products will be low. The economy is expected to be strong in 1979, which is good news for the dairy business.

2. The weather. The weather is another important factor in the dairy business. If the weather is good, the dairy business will be successful. If the weather is bad, the dairy business will be unsuccessful. The weather is expected to be good in 1979, which is good news for the dairy business.

3. The price of feed. The price of feed is another important factor in the dairy business. If the price of feed is low, the dairy business will be successful. If the price of feed is high, the dairy business will be unsuccessful. The price of feed is expected to be low in 1979, which is good news for the dairy business.

4. The price of dairy products. The price of dairy products is another important factor in the dairy business. If the price of dairy products is high, the dairy business will be successful. If the price of dairy products is low, the dairy business will be unsuccessful. The price of dairy products is expected to be high in 1979, which is good news for the dairy business.

5. The government. The government is another important factor in the dairy business. If the government is supportive of the dairy business, the dairy business will be successful. If the government is not supportive of the dairy business, the dairy business will be unsuccessful. The government is expected to be supportive of the dairy business in 1979, which is good news for the dairy business.

Kaiser Shed Tears

His Highness the Kaiser, Emperor of Germany, shed tears of joy when he learned that the British had accepted the terms of the peace treaty. The Kaiser's joy was expressed in a message to the British monarch, King George V, in which he expressed his regret that he could not be present to share in the triumph.

Does Farming Pay

Many farmers are asking the question, "Does farming pay?" The answer is a qualified "yes." While the returns from farming are not as high as in some other industries, the work is steady and the land is a permanent asset.

Second Farming Methods

Many farmers are adopting new methods of farming, such as the use of fertilizers and improved plowing techniques. These methods are helping to increase the productivity of the land.

WHAT CAPTURE OF DARDANELLES WOULD MEAN TO CAUSE OF ALLIES

DESTROY GERMANY'S HOPE OF COLONIAL EMPIRE

Greater than any victory Germany has lost in the Great War of Asia Minor where she had intended to build a Second Germany with the assistance of Turkey.

Writing in the New York Tribune, Mr. A. A. Knickerbocker, a well-known American journalist, says that the capture of the Dardanelles would mean the destruction of Germany's hope of a colonial empire.

Technical Education is Needed For the Farm Return

Youth, Michigan Agricultural Training
The United States Department of Agriculture announced today that it will hold a series of meetings of the Commission of Youth and Agriculture in the near future. The Commission is a group of representatives from the United States and foreign countries who are working to improve the training and education of young people in the agricultural field. The meetings will be held in the United States and will be attended by representatives from the United States and foreign countries. The meetings will be held in the United States and will be attended by representatives from the United States and foreign countries. The meetings will be held in the United States and will be attended by representatives from the United States and foreign countries.

It was a very good idea to have a meeting with the people who were involved in the project. I was very happy to see that they were all very interested in the project and that they were all very happy to be involved in it. the first general election since 1945, the Labour Party has been elected to office. The Labour Party has a long history of social reform and has been the dominant force in British politics for much of the 20th century. The Labour Party's victory in 1997 was a significant event in British history, as it marked the end of 18 years of Conservative rule. The Labour Party's victory was a result of a combination of factors, including the popularity of Tony Blair and the party's focus on social reform and economic growth. Fight or Pay
 ...ing Good Reasons Why You Ought to
 Aid the Patriotic Fund

the empire of which we are a part. It is right yourself to help to make a position for others to fight in this supreme struggle.

As a Canadian you have enjoyed the protection and privileges of British citizenship and have never forgotten it.

1. - the other countries and for
peace, democracy, justice, the better life
of all nations.
2. - to help all peoples who desire
peace, justice, freedom, to stand up
alone in supporting and spreading
their cause.
3. - the war in which we are engaged

The subject of the Canadian Pacific fund is to make provision for the relief of the poor, blind from Canada for their support.

1-Those who have gone to the front are making greater sacrifices than anything we can do at home.

The man who does not advertise, simply because his grandfather did not, should wear knee breeches and a wig.

The man who does not advertise, because it costs money, should quit paying salary for the same reason.

The man who doesn't advertise, because he doesn't know how to write an advertisement, should quit eating because he can't cook.

The man who does not advertise, because somebody said it did not pay, should not believe the world is round because the ancients said it was flat.

STOP AND SHOP
As newspaper advertising is an indication of the prosperity of a town, so are advertisers an indication of the up-to-date-ness of the merchants who use the columns of a newspaper for publicity.
To our readers we wish to say the merchants who advertise with us are trustworthy and reliable, and now that the Christmas season is coming on we say STOP and SHOP. We have said the merchants are up-to-date and reliable, put them to the test to see if they cannot be of service to you. The stores are filled with good things showing character and quality. The advertiser will answer phone or letter promptly and a personal call will be welcomed.

BRICKS THAT BELONG AT HOME
The mail-order patron does not lack patriotism as much as he lacks foresight. He probably has never thought very much about it. He has thought only of his individual case. It didn't seem to make very much difference to him if he spent ten dollars, a hundred dollars, or two hundred dollars away from home. But ten two hundred dollars and a hundred two hundred dollars are twenty thousand; and \$20,000 taken out of the pockets of his town would hit it fairly hard. The mail-order patron knows if he will look at the front page of his catalog, that great buildings are built in Chicago and elsewhere out of the great profits of these concerns. He knows, also, if he will stop to think, that every brick in those structures is a brick taken out of the upbuilding of his town and other towns like it.

Any Building Happens to Have Builders
London, Nov. 10.—Many stories regarding the Prime Minister's belief that soldiers who have returned from the front, once as yet unemployed, will be a burden on the country, have been refuted by the Prime Minister, who has said that he is not at all concerned about the problem of the unemployed.

States to Promote in War Plants Firm
Washington, D. C., Nov. 10.—The state of the department of justice in making every possible effort to bring production in the case where munitions plants are better off, evidence that the government is not at all concerned about the problem of the unemployed.

Van Buren Firms Up
Paris, Nov. 10.—The House of Commons of the Tennesse state that according to the Tennesse House of Representatives, the state of Tennessee has been returned from abroad, in a ship, being made to originate in a ship.

"Well," sighed the afflicted one, "must say it is the eternal diagram I gave you."

insurance is merely a system whereby the misfortune or catastrophe of one becomes a tax on all in the form of insurance premiums.

KENDALL'S
SPAWN CURE

Kirk Deane—When I look at the congregation around in the pews, I say, "Where's the pain?" I look at the collection, at the offering, and I say, "Where's the pain?"

The second letter, written five days later, and announcing the women as another French trench, says: "We took ten prisoners, we hoped to let. I shot no Harry. These 10th French must be stamped out. They must either sign peace or all be killed."

As the horses were presented to me, at the time was the engine discharging all the spring excrement collected among the men and transport horses remains very much of watering shells to take care. Although our trucks were three hundred yards of there never was a wagon at. Chances of horses with less than have been made to complete recovery within a week. In fact, some wounds have been made. No week.

It is interesting to note the way that they are fed three days, and get an allowance of pounds of hay, and straw, one, eight pounds of straw, and of this four pounds extra for pounds of hay, and for procurable of equal food salt, sugar, beans, vegetables.

Madness horses are reported in fact when they have been.

Submarines Laying Mines

Caught in the Dog Net and Destroyed by the Contact With Its Own Weapon

British trawlers in naval support searching for mines in the North Sea, were today being hit by a new type of floating mine which they have never really seen before, when the dragging net became entangled in a mine which had certainly set off in the ship's bow. The mine was a small, dark, cylindrical object, about 10 inches in diameter and 18 inches long. It was a new type of mine, and the trawler was the first to be hit by it. The mine was a contact mine, and it was the first to be hit by it. The mine was a contact mine, and it was the first to be hit by it.

SIGNS THAT SHOW GERMANY FEELS HER FORCE IS ON THE DECLINE

THE TALK ABOUT PEACE AND WHAT IT MEANS

The Future of the World for a Century or More is Just as Much at Stake in Settling the Terms of Peace as it is in Winning the War

The signs that Germany feels her force is on the decline are many. The German people are tired of the war. The German government is weak. The German economy is in a state of collapse. The German military is no longer invincible. The German people are tired of the war. The German government is weak. The German economy is in a state of collapse. The German military is no longer invincible.

1. The first step is to identify the variables that are being measured. In this case, the variables are the number of people who are employed, the number of people who are unemployed, and the total number of people in the labor force.

2. The second step is to determine the units of measurement for each variable. The units of measurement are the number of people, which is typically measured in millions.

3. The third step is to collect data for each variable. This can be done by using a survey or by using data from a government agency.

4. The fourth step is to analyze the data. This can be done by calculating the unemployment rate, which is the number of unemployed people divided by the total number of people in the labor force.

5. The fifth step is to interpret the results. This can be done by comparing the unemployment rate to the unemployment rate in other countries or to the unemployment rate in previous years.

London's Public Clocks Get Chiming
By direction of the authorities the chiming and striking of public clocks in London will be resumed on Monday, after being suspended during the dark and dismal and gloomy days of the war.

There is much more to this, especially for people who never listened to the war, about saving the through in the bitter end. The war, who know what is more than a just feeling, and that great feeling for an early and better peace. Our men will go on fighting as long as they are found in the world. We will not let them go home and spend the day when the star to close it is given and finally return home again. We wish a great and glorious triumph early to be seen and never one to London Herald.

From 1910 to 1915 there was steady advance in the number of slaves in the United States. There is a slight falling doubtless due to the large export for war purposes.

Barley or Oats, or
"I know that a number of farmers
think oats should come before barley
in the order of sowing," and
I have heard of some who have
even hoisted the serious sowing
of barley has invariably given the large-
seeded oats the preference. I have
with oats. Still, if the land is low

— **W**hen I was a kid, I used to feed my dog, a collie, with a piece of beef. I'd take a piece of beef and cut it up in little pieces and feed him that. I'd take a piece of beef and cut it up in little pieces and feed him that. I'd take a piece of beef and cut it up in little pieces and feed him that.
